

Bar Stool

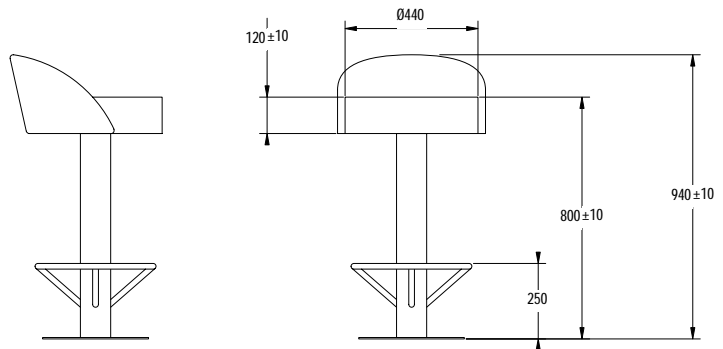

Stand alone pedestal base seating ideal for 'bar' and 'snack food areas'.

Constructed to withstand the rigors of heavy passenger traffic in a marine environment, this seat has a generous cushion and kidney support which can be covered in your choice of leathers or fabrics and is complimented with an elegant stainless steel column and base which is fastened securely to the deck. The pedestal base can be supplied as rotating and with a foot rest.

This space saving seating option offers designers and operators greater versatility in seating layouts while optimising and differentiating passenger areas
